SUMMARY

Python Full Stack Developer with expertise in FastAPI, Django, and React ecosystems. Built scalable RESTful APIs serving 500+ concurrent users with 99.9% uptime. Optimized database queries achieving 60% performance gains and implemented CI/CD pipelines reducing deployment time by 85%. Passionate about clean architecture and performance optimization.

TECHNICAL SKILLS

Python Full Stack: FastAPI, Django, Flask, Async Python, REST APIs
Frontend: React.js, Next.js, React Native, Tailwind CSS
Databases: PostgreSQL, MongoDB, Redis, Supabase
Cloud & DevOps: AWS (S3, EC2, Lambda), Docker, GitHub Actions, Git

EXPERIENCE

Full Stack Developer | Whistle

Feb 2026 – Present (1 yr)

- Architected and deployed 15+ RESTful APIs using FastAPI and async Python, reducing average response time by 40% through query optimization and caching strategies
- Led the development of cross-platform mobile UI with React Native, implementing reusable components that decreased development time by 30%
- Designed PostgreSQL database schemas with optimized indexes that improved query performance by 60% for high-traffic booking features
- Implemented CI/CD pipelines using GitHub Actions, reducing deployment time from 20 minutes to under 3 minutes

PROJECTS

Whistle Event And Hall Booking App | FastAPI | React Native | PostgreSQL | AWS

Feb 2026 – March 2026

- Engineered real-time booking system handling 500+ concurrent users with 99.9% uptime using AWS auto-scaling
- Integrated Stripe payment processing with 3D Secure authentication, processing ₹2M+ in transactions
- Developed admin dashboard with analytics features that reduced customer support queries by 45%
- Optimized MongoDB aggregations to generate reports 70% faster than previous implementation

Webinar Platform | Django | React.js | REST APIs

March 2025 – May 2025

- Built course enrollment system serving 1,200+ students with 95% satisfaction ratings
- Implemented JWT authentication with role-based access control for 3 distinct user types
- Created automated email notification system that increased user engagement by 35%
- Reduced server costs by 25% through query optimization and caching strategies

EDUCATION

B.E. Computer Science And Engineering

ST. JOSEPH COLLEGE OF ENGINEERING, Chennai, India

CGPA: 8.0/10
